## **Canadian artist plunges into Vienna depths**

Vienna's Atelier 3A gallery is currently showing a captivating series of works by Canadian abstract artist Stefan Fiedorowicz.

Critics laud Vienna-based Fiedorowicz for his incorporation of astounding colour with harmonious balance combining hues of complimentary juxtaposition.

Using varying knife strokes, he creates a highly textured surface where colour and form gives way to unsuspected depths. His work allows the imagination to wander in the undefined abstract world.

The Atelier 3A gallery is located at Mittersteig 3A in Vienna's Landstraße district.

Fiedorowicz' work will be on display until 28 March. See [www.atelier3a.at](http://www.atelier3a.at) and [www.stefansart.com](http://www.stefansart.com) for more information.
